

Essential iPhone Apps for Business Capturing Ideas, Notes, and Tasks

These business apps for iPhone let you organize notes, prioritize tasks, create action plans, and manage projects from start to finish. Visit the [iPhone in Business Apps page](#) and check out apps for every business.

The App Store is on every iPhone. Many apps are free, and others start at just 99¢.

Evernote ⁺

Record meeting details with notes, audio, or photos. Sync instantly from iPhone to your Mac or PC.

iThoughts (mindmapping)

Brainstorm, plan, and set goals. Then see how your thoughts and ideas relate to each other. Import and export mind maps to and from popular desktop mind mapping applications.

OmniFocus

Create and track tasks by project, place, person, or date; then sync wirelessly.

SketchBook Mobile

Digitally capture your ideas as sketches and create artwork with a full set of drawing tools, including pencils, markers, and brushes. Save your work and export or send via email.

Things

Make your own agenda and manage to-dos, notes, due dates, and projects using customizable lists. Sync to desktop version via Wi-Fi.

Todo

Focus task management for maximum efficiency. Stay organized with checklists and alerts, and sync with iCal and Outlook.

Whiteboard Capture Pro

Capture whiteboard notes in full resolution JPG format using an iPhone camera. Remove unwanted artifacts. Title, save, and organize images in folders and share via email.

Zeptoliner

Enter meeting notes as text, then drag and drop to create an outline with hierarchy. Copy and paste text from other apps. Email outlines while maintaining structure.

⁺ This app is designed for both iPhone and iPad.
