Apple Supplier Code of Conduct

Apple is committed to respecting the highest standards of labor, human rights, environmental, and ethical conduct. Apple’s suppliers are required to provide safe working conditions, treat workers with dignity and respect, act fairly and ethically, and use environmentally responsible practices wherever they make products or perform services for Apple. Apple requires its suppliers to operate in accordance with the principles and requirements, as applicable, in this Apple Supplier Code of Conduct (“Code”), and in full compliance with all applicable laws and regulations.

Our Principle
The Code is based on internationally recognized human rights, as set out in the United Nations’ International Bill of Human Rights and the International Labour Organization’s Declaration on Fundamental Principles and Rights at Work. Apple is deeply committed to respecting human rights as laid out in our company-wide Human Rights Policy and our approach is based on the UN Guiding Principles for Business and Human Rights (UNGPs).

In keeping with the UNGP framework, where national law and international human rights standards differ, we follow the higher standard. Where they are in conflict, we respect national law, while seeking to respect the principles of internationally recognized human rights.

In addition, where national law and Apple’s strict environmental, health and safety standards differ, we follow the higher standard. Where national law and Apple’s high standards are in conflict, we respect national law while seeking to honor the higher standard.

Apple will assess its suppliers’ compliance with this Code, and any violations of this Code may jeopardize a supplier’s business relationship with Apple up to and including termination. This Code applies to Apple suppliers and their subsidiaries and affiliates, as well as subcontractors and sub-tier suppliers (each a “Supplier”) providing goods or services to Apple or for use in or with Apple products.

Additionally, Apple maintains detailed standards (“Standards”) that explicitly define our expectations for compliance with this Code by Suppliers.
