

Apple Distinguished Schools

We believe Apple Distinguished Schools are some of the most innovative schools in the world. They're centers of leadership and educational excellence that demonstrate our vision of exemplary learning environments. They use Apple products to inspire student creativity, collaboration, and critical thinking. Leadership in our recognized schools cultivate environments in which students are excited about learning, curiosity is fostered, and learning is a personal experience.

All students and staff in Apple Distinguished Schools have one-to-one access to Apple technology for learning and teaching. We've selected a few profiles to highlight a variety of schools and education programs from around the world.

K-12 School Profiles

California Elementary School

Orange, California

[Website](#) | [Learn more](#)

School bio

- Public
- Grades K–5
- 600 students
- Suburban
- 93 percent socioeconomically disadvantaged (SED)
- 75 percent English-language learners

Apple products used

- One-to-one iPad schoolwide for students
- MacBook and iPad for teachers
- MacBook integration in academic classes
- Apple TV
- Apple Pencil

Each California Elementary student has an iPad to work on oral fluency, digital literacy, innovation, and creativity at school and home. In lessons, students analyze, evaluate, and form their own meaning, thoughts, and ideas as they learn vocabulary and reading and writing skills.

Literacy pathways are customized for all students, and teachers assign digital books based on reading levels and interests. Students use iPad to record themselves reading and to add images, audio, drawings, and effects to their writing. For example, they use Safari to research real-world connections to vocabulary words, then use iMovie to make their work come to life by creating visual representations of the words.

Before the school's Blended Learning Literacy initiative with iPad began in 2015, only 15 percent of students were performing at or above grade level in reading. Over the next five years, student literacy rates indicate that 85 percent of students were performing at or above grade level in reading.

Colégio Bandeirantes

São Paulo, Brazil

[Website](#)

School bio

- Private
- Grades 6–12
- 2600 students
- Urban

Apple products used

- One-to-one iPad schoolwide for students
- MacBook and iPad for teachers
- Apple TV

Colégio Bandeirantes focuses on innovation to prepare students for the future. Leadership encourages the integration of technology because it contributes to the enrichment and development of students and increasingly connects the school's teachers and students.

Students use iPad to explore the learning materials teachers produce with iBooks Author, and they use iMovie and other apps to create videos that enhance their experiences. Using Apple technology, the school experiments with different formats for learning and has developed an app for iPad that teaches Spanish as a second language.

K–12 School Profiles

Deer Park Junior High

Deer Park, Texas

[Website](#) | [Learn more](#)

School bio

- Public
- 900 students
- Grades 6–8
- Suburban
- 27 percent of students are from low-income families

Apple products used

- One-to-one iPad schoolwide for students
- MacBook and iPad for teachers
- MacBook integration in academic classes
- Apple TV
- Apple Pencil

Apple technology helps Deer Park Junior High empower today's students to solve tomorrow's challenges. iPad enables teachers to personalize learning and differentiate instruction to meet each student's needs. It has transformed all content areas for all grade levels through regular professional development and dedicated teacher innovation. Student technology assistants spend one class period in the library each day supporting the integration of technology.

As students learn content in class, they regularly use iPad to apply theory to reality—whether it's by doing something as simple as looking up a real-world example of a concept or by using Numbers to create a graph that shows the results of an experiment. A group of students connected to the community by planning a benefit concert. They used iPad to track auction items, update their web page, email donors and sponsors, design a logo, make the program, build a video slideshow, stay organized, and more.

EPiC Elementary

Liberty, Missouri

[Website](#) | [Learn more](#)

School bio

- Public
- Grades K–5
- 300 students
- Suburban

Apple products used

- One-to-one iPad schoolwide for students
- MacBook and iPad for teachers
- MacBook integration in academic classes
- Apple TV
- Apple Pencil

EPiC Elementary is an innovative, technology-infused, learner-centered environment. With a project-based curriculum, students discover, embrace, and integrate authentic learning experiences to create and design real-world applications of their knowledge. As an incubator for the district, EPiC is a place where many ideas are born and tested with a scaled, systemwide implementation.

Over the last five years, EPiC learning data has consistently shown that more than 85 percent of students are performing at grade level in math and 90 percent of students are performing at grade level for English language arts. The school attributes this success to the personalization provided in their one-to-one iPad learning environment coupled with dynamic teacher instruction. One hundred percent of the teaching and administrative staff are Apple Teachers.

K–12 School Profiles

Gwa'sala-'Nakwaxda'xw School

Port Hardy, British Columbia, Canada

[Website](#) | [Learn more](#)

School bio

- Independent, band-operated school
- Grades P–7
- 120 students
- Rural
- Serving First Nations students

Apple products used

- One-to-one iPad schoolwide for students
- MacBook and iPad for teachers
- Apple TV 4K in each classroom

The Gwa'sala-'Nakwaxda'xw School is an independent First Nations Pre-K to grade 7 school located on the Tsulquate Reserve. Their philosophy is to provide learning experiences in a culturally responsive and rich environment that's characterized by respect and care. Their aim is to provide child-centered lessons that focus on decolonizing learning and promoting reconciliation.

Learning is personal and differentiated, and students use a variety of apps and resources to enhance their learning in skill building, concept review and integration, and problem solving. They use iPad to learn and reinforce traditional language with local elders.

Knox County R-I School District Schools

Edina, Missouri

[Website](#) | [Learn more](#)

School bio

- Public
- Grades K–12
- Rural
- 420 students
- 62 percent of students are from low-income families

Apple products used

- One-to-one iPad schoolwide for students
- MacBook and iPad for teachers
- MacBook laptops for students to check out
- Apple TV

Knox County R-I School District's i.G.R.O.W. project provides students and teachers with the environment and resources to transform teaching and learning. Students in all grade levels use Apple tools daily to show knowledge in many ways and to engage in meaningful learning, from taking notes during discussions to scripting, filming, and editing movies. Students are creating, collaborating, and engaging in many different learning experiences.

The administrative team uses an engagement inventory to measure technology use in classrooms, then shares the results with teachers and staff to help establish goals for implementation and instructional planning as well as professional development.

Latin American School

Monterrey, Mexico

[Website](#) | [Learn more](#)

School bio

- Private
- Grades P–9
- 1200 students
- Suburban

Apple products used

- One-to-one iPad schoolwide for students
- MacBook and iPad for teachers
- Apple TV

Latin American School incorporates technology in all programs, customizing them to meet the needs of students at every skill level. iPad supports the school's creative, collaborative, and inspirational approach to education. All students from preschool through ninth grade have their own devices.

Teachers deliver lessons through iTunes U and use a flipped classroom approach; students participate in project-based learning. The school has adopted Everyone Can Code, and their Coding and App Development Institute allows students of all ages to develop apps.

New Wave Federation

London, England

[Website](#) | [Learn more](#)

School bio

- Public
- Years 5–6
- 1600 students
- Urban

Apple products used

- One-to-one iPad for 420 students
- MacBook and iPad for teachers

New Wave Federation consists of three primary schools in north London, including Grazebrook Primary School, Shacklewell Primary School, and Woodberry Down Primary School. The vision for the federation is to leverage "the power of choice," so students can be active partners in the learning process and personalize their learning and the types of tools and technology they use. A one-to-one iPad program operates across Years 5 and 6, with shared devices across the rest of the school.

North Rowan High School

Spencer, North Carolina

[Website](#) | [Learn more](#)

School bio

- Public
- Grades 9–12
- 550 students
- Rural
- 69 percent of students are from low-income families

Apple products used

- One-to-one iPad for students in grades 9–10
- One-to-one MacBook for students in grades 11–12
- MacBook and iPad for teachers
- Apple TV

In early 2017, North Rowan High School had the opportunity to rethink the traditional education model and redesign for a new and innovative system that better serves students. North High embraced Challenge Based Learning, design thinking, and authentic student work creation to engage all learners to cultivate their True North. The North High culture has shifted dramatically toward success in less than three years as a result of the collaborative instruction revision, student-oriented daily logistics, and more intentional use of Apple technology.

NRHS has created design labs where grade 9 and 10 students engage in Challenge Based Learning for 20 percent of the day—helping them find their own True North and express their gifts and talents in a technology-rich, real-world learning environment.

Oak Lawn Community High School

Oak Lawn, Illinois

[Website](#) | [Learn more](#)

School bio

- Public
- 1850 students
- Suburban
- 40 percent of students receive free/reduced lunch
- 8.5 percent of students are English-language learners

Apple products used

- One-to-one iPad schoolwide for students
- MacBook and iPad for teachers
- MacBook integration in academic classes
- Apple TV
- Apple Pencil

At Oak Lawn Community High School, iPad, MacBook, and an Apple TV in more than 100 classrooms provide students with endless opportunities for personalized learning in everything from English to physical education. Art students use iPad to virtually visit a garden in Japan and capture the scenery using Japanese painting techniques. In a renovated classroom modeled after a Silicon Valley startup, students in a mobile apps class learn professional app design using Swift. In the Art Gallery, students use augmented reality to create overlays on their work that link to iMovie projects that illustrate their artistic process and the meaning behind their art.

The average daily attendance is 93.9 percent—the highest it's been in four years. And since implementing iPad, the course failure rate has reduced from approximately 5 percent to 3.5 percent.

RDFZ XISHAN School

Beijing, China

[Website](#)

School bio

- Public
- Grades 9–12
- 4500 students
- Urban

Apple products used

- One-to-one iPad schoolwide for students
- MacBook and iPad for teachers

RDFZ XISHAN School is a public full secondary school that implemented a schoolwide one-to-one future learning project with iPad. They began in 2010 by working in two classes at each grade level, then expanded the initiative to each whole grade. As the classroom teaching transformed, the ways students learned also changed. Students are better able to collect, process, and use digital information and can explore and locate information through discovery-based and problem-based learning. Founded on the rich theoretical and practical achievements of the learning project, all teachers have implemented curriculum reform with the development of students' creative thinking and the construction of high-quality digital courses at the core.

Richard J. Lee Elementary

Dallas, Texas

[Website](#) | [Learn more](#)

School bio

- Public
- Grades K–5
- 730 students
- Suburban
- 85 percent are English-language learners

Apple products used

- One-to-one iPad schoolwide for students
- MacBook and iPad for teachers
- MacBook integration in academic classes
- Apple TV
- Apple Pencil

Challenge Based Learning is woven throughout Richard J. Lee Elementary's curriculum, and groups of learners from different grades collaborate on projects. Digital courses allow students to set the pace of their learning. Without rows of desks, students choose their nooks and spaces to learn, explore, and collaborate with iPad and MacBook.

Learners take digital literacy and citizenship lessons before receiving iPad and revisit them quarterly to help them develop positive digital footprints and become responsible digital citizens.

Lee Elementary's attendance rate is more than 2 percent higher than the state average of 95 percent. In the 2018–19 school year, Richard J. Lee Elementary met Texas's system safeguards—including performance and participation target rates—for all 11 student groups. And the school's accountability ratings met the standards in all four areas: Student Achievement, Student Progress, Closing Performance Gaps, and Postsecondary Readiness.

School of Science and Technology, Singapore

Singapore

[Website](#)

School bio

- Public
- Secondary, ages 13–16
- 800 students
- Urban

Apple products used

- One-to-one MacBook schoolwide for students
- MacBook and iPad for teachers

The School of Science and Technology nurtures passionate innovators who use science and technology to think beyond convention. With a MacBook for every student, students gain a foundation of STEM concepts with an emphasis on information communication technology (ICT). Students interested in app development participate in a school program to learn coding and other technology skills. These students are technology advocates to the country, and in that role, present ICT workshops for primary and secondary school students.

Senzoku Gakuen Elementary School

Kawasaki, Japan

[Website](#)

School bio

- Private
- Grades 1–6
- 474 students
- Urban

Apple products used

- One-to-one iPad for students in grades 2–5
- MacBook and iPad for teachers
- Apple TV

Since its inception, Senzoku Gakuen Elementary School has endeavored to foster leadership in their learners. The school also believes in adapting to a changing society and its evolving culture as one form of innovation. An iPad for each teacher and student has laid the groundwork for incorporating learning that's suited to this age of technology. Teachers use rubrics to evaluate student teamwork during group projects and presentations. Evaluations show that Keynote helped in developing that teamwork. Results have exceeded teachers' expectations. In particular, students are more actively participating in and contributing to group work. They can be seen checking on the progress of others around them even as they proceed with their own work.

- Grades K–9
- 560 students

Apple products used

- One-to-one iPad schoolwide for students
- MacBook and iPad for teachers

The vision of Stenkulaskolan can be summarized in three words: simplicity, transformation, learning. And this vision is at the core of every decision the school makes. With its strategic approach toward leveraging the Apple Teacher program, Stenkulaskolan has been able to increase collaboration among teachers and change the school culture. The outcome has been a rapid increase in readiness for high school studies. In just one school year, the school went from 75 percent of students being qualified for high school to 97.5 percent.

Te Akau ki Papamoa

Tauranga, New Zealand

[Website](#) | [Learn more](#)

School bio

- Public
- Years 1–6
- 700–750 students
- Suburban
- 38 percent of students are indigenous, identifying themselves as Māori

Apple products used

- One-to-one iPad schoolwide for students
- MacBook and iPad Pro for teachers
- MacBook integration in academic classes
- Apple TV in every classroom
- iPhone for administration and leadership team

The vision at Te Akau ki Papamoa is to foster a deep sense of belonging and self by creating conditions that promote identity, culture, and Te reo Māori—the Māori language. The school integrates digital technologies to drive the New Zealand curriculum and to help students, teachers, and the community learn and thrive in a digital world. Teachers' highly effective use of technology to enhance learning and engagement is used nationally and internationally as a best practice exemplar. The school participates with the community in reciprocal, learning-centered relationships and engages parents as partners in their students' learning through digital technology.

Wonga Park Primary School

Wonga Park, Australia

[Website](#) | [Learn more](#)

School bio

- Public
- Years P–6
- 447 students
- Suburban

Apple products used

- One-to-one iPad schoolwide for students
- MacBook and iPad for teachers
- MacBook for students in coding club and maker space
- Apple TV
- Apple Pencil

Wonga Park Primary School encourages students to use mobile technology to build deep understanding about big ideas, pose questions, participate in direct learning, come up with creative solutions, and practice reflective thinking. From allowing students to personalize their writing with pictures to playing back their voices to help them improve reading fluency and oral language skills, iPad has revolutionized the way students develop literacy. And it has changed the way educators teach math. Students record their understanding of concepts, and teachers can take the time they need outside of class to listen to every student's thinking.

Lynn University

Boca Raton, Florida

[Website](#) | [Learn more](#)

School bio

- 4-year private
- 3000 students

Apple products used

- iPad and iPad Pro
- MacBook and iMac
- Apple TV
- Apple Pencil and Smart Keyboard

iPad powers Lynn University's curriculum and supports its mission to provide an innovative, global, and personalized experience. Whether students are adult learners with obligations outside the classroom or soon-to-be graduates preparing for life after college, iPad helps them stay connected to their coursework and gain practical experience for their future.

Students save up to 90 percent on textbook costs. They access course materials using Canvas and textbooks on iTunes U. Faculty have produced more than 60 ebooks through the Lynn University Digital Press. Engaging mobile content is delivered to students through Lynn's discussion-driven Dialogues core curriculum.

The Ohio State University

Columbus, Ohio

[Website](#) | [Learn more](#)

School bio

- 4-year public
- 54,000 students

Apple products used

- One-to-one iPad schoolwide for 25,000 first- and second-year students
- Apple Pencil and Smart Keyboard

The Ohio State University developed a comprehensive, technology-enabled student success initiative called Digital Flagship. With this program, all undergrads get an iPad, Apple Pencil, a Smart Keyboard, a suite of education apps, and AppleCare+ for iPad, as well as access to digital skills programs to prepare them for success at school and in their future careers.

For all students, faculty, and staff, the school launched a free online Swift Coding and App Development Certificate program and built the Mobile Design Lab to promote coding, app development strategies, design thinking processes, and greater understanding about how technology works. Ohio State has also strategically developed enterprise mobile apps that meet the unique needs and interests of the university community.

UCI School of Medicine

Irvine, California

[Website](#)

School bio

- Public medical school
- 400 students

Apple products used

- iPad Pro schoolwide for students
- Apple Pencil and Smart Keyboard

The one-to-one iPad program at the UCI School of Medicine serves as a catalyst for producing consistently engaging and immersive educational experiences. The traditional medical school curriculum has been transformed by active, small-group learning that's supported by accessible, digital resources. Clinical skills instruction integrates innovative technologies that include virtual and augmented reality, 3D printing, and mobile diagnostic tools. From their first year, students pair iPad with a Butterfly iQ handheld ultrasound device for a portable, hands-on approach to improving diagnostic skills and anatomical knowledge. This 21st-century initiative prepares students for future practice in an increasingly digital and highly mobile healthcare environment.
